**More dutch DJ's and programs :**

A lot of you asked in the past that they would love to have more dutch programs.

We are proud to announce 2 more 'big names' from the offshore-past.

Colin Peters ('the real one', see pic above left) worked on the Ross Revenge from 1986 – 1989 for the dutch programs of Radio Monique, Radio 558 and Radio 819. He will take over the Wednesday 'Hello Europe' slot from December.

Johan Vermeer (pic above right) worked as a DJ and engenier on the MV Magdalena for Radio Mi Amigo in 1979. You can listen to Johann every Saturday and Sunday.

All news about the changes you will find within the next week also on our Homepage (click to the schedule-page and DJ-page):

## **Unique Radio Mi Amigo stamps :**

We are proud to announce our own official Radio Mi Amigo stamps. They are legal for use to send out our QSL Cards (printed by the 'Deutsche Post'). You can get one of these (there are only 200 available and will never be printed again from us) together with the QSL Card.

The only thing you have to do:

Send us a reception report together with your name and complete postaddress in December via the normal post (no email) and please include 1 or 2 Euro/Dollar (no IRC's as the post does not take them here)

Please use the postaddress which is mentioned above in the pic (Radio Mi Amigo, P.O.Box 212045, 10514 Berlin). You will find our postaddress also on our homepage (contact-page)

The first 200 will get the exclusive QSL-Card with the Mi Amigo stamp on it.

## 10 years shortwaveservice:

Exact 10 years ago, the shortwaveservice (our partner since more than 3 years) got his first licence for legally broadcasting from Kall-Krekel. Since then they are on the air on 6005 kHz. What started as a little hobbyproject in 2007 is now a company with 5 transmitters on the air.

On November 25th they will air a special birthday show

10 years broadcasting from Kall-Krekel. Enjoy the special broadcast on Saturday, 25th November 2017 from 15-18 UTC on 9395 kHz towards Northern America and on 5845 kHz towards Europe. This is a LIVE-broadcast so you can react to the shortwaveservice during the show.

All infos you will find on: <http://shortwaveservice.com> and on the Facebookpage: <https://www.facebook.com/Shortwaveservice/>

To all of you from all of us: Have a great December and stay tuned to Radio Mi Amigo International.
